Warner was such a terrible liar and politician. I had to do a presentation about him and he would contradict and lie to groups about his position on issues, at different locations on the same day. They broke the links to his voting record on his website, to make it hard to see his hypocrisy. I read ever vote he had made, read every speech and was disgusted by him. Left office under a dark cloud; can't remember what.

RODERICH PIK, The Sea Route between Taiwan and the Philippines in Chinese Texts (c. 1100–1600): New Questions Related to an Old Theme, *Journal of Asian History*, Vol. 50, No. 1 (2016), pp. 47-71

[jstor.org](http://www.jstor.org)

<http://www.jstor.org/stable/10.13173/jasiahist.50.1.0047...>

### The Sea Route between Taiwan and the Philippines in Chinese Texts (c. 1100–1600): New Questions Related to an Old Theme

Roderich Piik

1

In the Age of Sail two major trade arteries connected coastal China with the world of South-east Asia: (1) the western route, which followed the coasts of Fujian, Guangdong, and eastern Hainan down to the shores of modern Vietnam and the east side of the Malay peninsula, with various branches reaching east into the Gulf of Siam and extending to northwestern and western Kalimantan, as well as to various destinations around the Java Sea; and (2) the eastern route, which ran from Fujian to Penghu, northern Taiwan, Luzon, the Sulu zone, and on into the Celebes Sea and the Moluccan world. Both these corridors, or rather traffic systems, were linked by a "transitional" zone which ran from northwestern Kalimantan via Brunei to the coasts of modern Sabah. There are also reasons to assume that in historical times, at least for a brief period of time, some ships occasionally moved back and forth along a direct east-west line between Champu and Mindoro, which bypassed the Zhongsha area. 9 (194) It is not Maclefeldt, Barke and Reef at its south side, but textual evidence for this passage is weak.

Historians of maritime China are familiar with the writing outlined above, and there are, in some dozens of books and articles in different languages that cover this subject in its totality or provide details with regard to individual segments of the route, such as the Taiwan-Luzon portion of the eastern route.<sup>1</sup> The enormous quantity of studies on these and related issues partly stems from the fact that the central section of the South China Sea, or Nansha, is covered with shoals, reefs, and small coral islands, which greatly impeded direct sailing from north to south (for example, along a diagonal line from Guangzhou to Peking, or from Quanzhou, Luzon, down to Brunei, to mention just two possibilities); these islands, as we all know, have become a hotly debated political arena in our own age – indeed a region where

1 Some examples in English: Wells 1978; Mills 1979; Piik 2000 and 2001; Liu Tingheng 2011. – An early example in Chinese: Huang Chongshu 1973. Surveys discussing the eastern route within larger contexts: Yang Guoshun 1999; Tang Shaoxing 1998. Some new suggestions in Zhou Yan 2015.

# AGE TEST

*How many of these do you remember?*

1. Cap guns.
2. Home milk deliveries in glass bottles.
3. TV test patterns early in the morning.
4. Curb finders for your car.
5. Stamp books and redemption centers.
6. Phone booths.
7. Aluminum ice cube trays with pull handles.
8. Subway tokens.
9. Crazy Eddie's
10. Earl Scheib's auto paint jobs.
11. Mobile rides that came around the neighborhood.
12. Free road maps at service stations.
13. Seltzer bottles.
14. Doctors who made house calls.
15. Cigarette vending machines.
16. Flash cubes.

We're ahead of schedule to turn Star Trek tech into reality

Most of the sci-fi franchise takes place centuries in the future, but some of the technology from the universe of Kirk and Picard could be a reality sooner than you think.
